-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 14 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Welin (US 6,975,629) in view of Rhee (US 6,104,757).

Regarding claims 14 and 16, Welin teaches a buffer which preserves received packet data (fig. 14 box 1431, col. 31 lines 40-42).

Welin teaches a conversion means for reordering the packets according to the playback order of said packets (reordering according to sequence number, col. 31 lines 45-48).

Welin teaches a decision means for deciding whether the received time of said packets is before or after the playback time of said packets (fig. 7, time stamp, each packet must meet its deadline or be thrown away, col. 3 lines 6-10).

Art Unit: 2616

Welin teaches a playback means for fetching only packets received at the time previous said playback time from said buffer, based on said decision result (fig. 7, time stamp, each packet must meet its deadline or be thrown away, col. 3 lines 6-10).

Welin is silent on a storing unit operable to store said packets preserved in said buffer without discarding packets determined to be received after their corresponding playback times.

Rhee teaches a storing unit operable to store said packets preserved in said buffer without discarding packets determined to be received after their corresponding playback times (rather than discarding late packets, packets are used to restore frames, col. 2 lines 10-18).

Therefore it would have been obvious to one of ordinary skill in the art, to modify the system of Welin by storing late arriving packets. This modification can be performed in software according to the teachings of Rhee. (Suggestion) The suggestion for the modification is rather than discarding late packets, packets are used to restore frames (Rhee: col. 2 lines 10-18).

Allowable Subject Matter

3. Claim 15 allowed.

Response to Arguments

4. Applicant's arguments with respect to amended independent claims 14 and 16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated
